DYNAMIC INDUSTRIES LIMITED

agreement with Central Depository Services Limited (CDSL) for facilitating voting through electronic means, as the authorized agency. The facility of casting votes by a member using remote e-voting system as well as venue voting on the date of the AGM will be provided by CDSL.

5. In line with the Ministry of Corporate Affairs (MCA) Circular No. 17/2020 dated April 13, 2020, the Notice calling the AGM has been uploaded on the website of the Company at www.dynaind.com. The Notice can also be accessed from the websites of the Stock Exchange i.e. BSE Limited at www.bseindia.com and the AGM Notice is also available on the website of CDSL (agency for providing the Remote e-Voting facility) i.e. www.evoting.cdsl.com.
6. AGM has been convened through VC/OAVM in compliance with applicable provisions of the Companies Act, 2013 read with MCA Circular No. 14/2020 dated April 08, 2020 and MCA Circular No. 17/2020 dated April 13, 2020 and MCA Circular No. 20/2020 dated May 05, 2020.

THE INSTRUCTIONS OF SHAREHOLDERS FOR E-VOTING AND JOINING VIRTUAL MEETINGS ARE AS UNDER:

Step 1: Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

Step 2: Access through CDSL e-Voting system in case of shareholders holding shares in physical mode and non-individual shareholders in demat mode.

- (i) The voting period begins on Saturday, 24th September, 2022 at 09.00 A.M. and ends on Monday, 26th September, 2022 at 05.00 P.M. During this period shareholders' of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of 21st September, 2022 may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- (iii) Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

Step 1: Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

- (iv) In terms of SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INDUSTRIAL STRUCTURE AND DEVELOPMENT :

The Company is in the business of manufacturing of Chemical and main product of the Company is Dye and Dye Stuffs. However, Competition in the industry is continuously increasing but overall Performance of the Company is good.

OVERVIEW :

The financial statements have been prepared in compliance with the Indian Accounting Standards (Ind AS) issued by The Institute of Chartered Accountants of India (ICAI) which have been notified under the Companies (Indian Accounting Standards) Rules, 2015 ('Ind AS Rules), of the Companies Act, 2013. The management of the company accepts responsibility for the integrity and objectivity of these financial statements, as well as for various estimates and judgments used therein. The estimates and judgments relating to the financial statements have been made on a prudent and reasonable basis, in order that the financial statements reflect in a true and fair manner the form and substance of transactions, and reasonably present the company's state of affairs and profit for the year.

OPPORTUNITY :

India is one of the largest exporter of Dyes & Intermediates across the globe. India's capability in low cost manufacturing, availability of technically trained manpower, better price realization globally and strong presence in market are the key growth drivers.

THREATS :

COMPETITION :

Competition in the domestic as well as international market has intensified and forced the players to adopt aggressive marketing strategy and promotional campaigns to capture and protect their market shares. The Company has the plans to penetrate better intoglobal market, especially through the customer retention and business development in the regions which have not been tapped.

The Company sells its products through a well-established network in different countries, which are supported by the Company's strong marketing force. The Company has developed a well-defined Trade Relationship Management Policy. The Company's broad product range and frequent visits by its marketing people to the outlets and the importing countries ensure that the Company's products receive a maximum response and are adequately promoted.

SEGMENT WISE AND PRODUCT WISE PERFORMANCE :

The Company operates within a solitary business segment i.e. manufacturing of chemicals and dyes. Further, all products of the company are classified as "Dyes". Hence, Segment/Product wise report is not given separately.

RISK AND CONCERN :

The risk management function is integral to the company and its objectives include ensuring that critical risk is identified continuously, monitored and managed effectively in order to protect the company's business.

However, the changes in the tax laws, Government policies, and regulatory requirement might affect the company's business. Uncontrolled variation in the price of input materials could impact the company's profitability to the extent that the same are not absorbed by the market through a price increase and/or could have a negative impact on the demand in the market. Currency risks mainly arise out of overseas operations. Exchange rate fluctuation could significantly impact earnings because of earning in foreign currencies and expenditures in foreign currencies. The company is operating in the highly competitive market.

The management has already taken initiatives in advance for mitigating the above mentioned risk and concerns/challenges. The company has taken major initiatives like a hedging of exposure in foreign currencies, strong marketing efforts, focus on cost reduction through inventory management techniques, the introduction of new products and manufacturing process without compromising the quality of products and retain talented employees etc.

INITIATIVES BY THE COMPANY :

The Company has taken the following initiatives:

- Concentration on the reduction of costs by undertaking a specific exercise in different fields.
- Concentration in Increase of Exports.
- Focusing on the modernization of manufacturing process to improvise quality and reduction of costs.
- The Company is quite confident that the overall productivity, profitability would improve in a sustainable manner, as a result of this strategy.
- The company is going to demolish the old Plants and Machineries and install new Plants and Machineries with latest technologies to improve the quality of product and avoid any uncertainty at Company's Unit .

DYNAMIC INDUSTRIES LIMITED

OUTLOOK :

The outlook for the business continues to be stable, as the Company continues to work on distribution expansion and strengthening of supply chain. The Company is confident to meet the challenges with its strength in marketing network, its strategic planning, Research & Development productivity improvement and cost reduction exercise.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY :

Your Company places significant emphasis and efforts on the internal control systems. The Company has appointed an independent firm of Chartered Accountant for the same with such powers and responsibilities that are required to ensure the adequacy of the internal Control System.

HUMAN RESOURCE :

Your Company firmly believes that employees are the most valuable assets and key players of business success and sustained growth. Various employee benefits, recreational and team building efforts are made to enhance employee skills, motivation as also to foster team spirit. Industrial relations were cordial throughout the year. The Company has 76 employees excluding Directors & KMP as on year ended 31st March, 2022.

CAUTIONARY STATEMENT :

The statements in the "Management Discussion and Analysis Report" section describes the Company's objectives, projections, estimates, expectations and predictions, which may be "forward looking statements" within the meaning of the applicable laws and regulations. The annual results can differ materially from those expressed or implied, depending upon the economic and climatic conditions, Government policies and other incidental factors.

DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE :

In terms of performance, FY 2021-2022 has been a moderately good year. Company is focused on the task on hand in terms of better reliability of operations and more focussed market efforts. Our financial performance reflected the steady operational performance. Our revenue from continuing operations increased by 52.85 % to Rs.5454.44 Lakhs. The compliance of conditions of Corporate Governance is the responsibility of the Management. Our examination was limited to procedures and implementation thereof, adapted by the Company for ensuring the compliance of the conditions of Corporate Governance. It is neither an audit nor an expression of opinion on the Financial Statements of the Company.

In our opinion and to the best of our information and according to the explanations given to us, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in the SEBI Listing Regulations, 2015 and that none of the Directors on the Board of the Company have been declared debarred or disqualified from being appointed or continuing as directors of companies by the SEBI, the Ministry of Corporate Affairs or any other statutory authority.

We state that such compliance is neither an assurance as to future viability nor the efficiency or effectiveness with which the Management has conducted the affairs of the Company.

This Report is addressed to and provided to the members of the Company solely for the purpose of enabling it to comply with its obligations under the Listing Regulations and should not be used by any other person or for any other purpose. Accordingly, we do not accept or assume any liability or any duty of care or for any other purpose or to any other party to whom it is shown or into whose hands it may come without our prior consent in writing. We have no responsibility to update this Report for events and circumstances occurring after the date of this Report.

INDEPENDENT AUDITORS' REPORT

To the Members of
DYNAMIC INDUSTRIES LIMITED
Ahmedabad.

Report on the Audit of the financial statements

Opinion

We have audited the accompanying financial statements of DYNAMIC INDUSTRIES LIMITED (“the Company”), which comprise the balance sheet as at 31st March 2022, and the statement of Profit and Loss, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as ‘financial statements’).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 (The Act) in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, (“Ind AS”) and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, and its profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor’s Responsibilities for the Audit of the financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

We have determined that there are no key audit matters to communicate in our report.

Other Information

The Company’s Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board’s Report including Annexure to Board’s report, Business Responsibility Report, Corporate Governance Report and Share Holders Information, but does not include the financial statements and our auditor’s report thereon. The other information report is expected to be made available to us after the date of this auditor’s report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the other information report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance to initiate actions applicable in the applicable laws and regulations.

Management’s Responsibility for the Financial Statements

The Company’s Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 (“the Act”) with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the

DYNAMIC INDUSTRIES LIMITED

accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also :

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the

adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure-A - a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

**Annexure- B to the Independent Auditors' Report
of even date on the Financial Statements of Dynamic Industries Limited**

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting Dynamic Industries Limited ("the Company") as of 31 March 2022 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO THE FINANCIAL STATEMENTS

Note 1 : Company Overview

Dynamic Industries Limited is a public company limited by shares, domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. The company's shares are listed in Bombay Stock Exchange. The Company is in the business of manufacturing of Dyes and Chemicals and main products of the Company are Dyes and Dye stuffs. The Competition in the industry is continuously increasing but overall performance of the company is good. The registered office of the Company is located at Plot No.5501/02, Phase-III Nr. Trikampura Cross Road, GIDC Vatva, Ahmedabad- 382 445.

The financial statements for the year ended 31st March, 2022 were considered by the Board of Directors and approved for issuance on 20th May, 2022.

Note 2 : Basis of Preparation

The financial statements have been prepared in accordance with the Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016, as applicable. Accounting Policies have been consistently applied except where newly issued accounting standard is initially adopted or revision to the existing standards requires a change in the accounting policy hitherto in use. Management evaluates all recently issued or revised accounting standards on an on-going basis.

The financial statements are prepared in INR and all the values are rounded to the nearest lakhs, except when otherwise indicated.

2.1 Statement of Compliance

The financial statements comprising Balance Sheet, Statement of Profit and Loss, Statement of Changes in Equity and Cash Flow Statement, together with notes for the year ended 31st March, 2022 have been prepared in accordance with Ind AS as per Companies (Indian Accounting Standards) Rules, 2015 notified under section 133 of the Companies' Act, 2013 ("the Act") and other relevant provisions of the Act.

2.2 Basis of Measurement

The financial statements of the Company have been prepared and presented in accordance with the Generally Accepted Accounting Principles (GAAP) under the historical cost convention on accrual basis of accounting, except for certain Assets and Liabilities as stated below :

- (a) Financial instruments (assets / liabilities) classified as Fair Value through profit or loss or Fair Value through Other Comprehensive Income are measured at Fair Value.
- (b) The defined benefit asset/liability is recognised as the present value of defined benefit obligation less fair value of plan assets.

The above items have been measured at Fair Value and the methods used to measure Fair Values are discussed further in Note 4.16.

2.3 Functional and Presentation Currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates ("the functional currency"). Indian Rupee is the functional currency of the Company.

The financial statements are presented in Indian Rupees (₹) and all values are rounded to the nearest lakhs as per the requirement of Schedule III, except when otherwise indicated.

2.4 Standard Issued but not effective

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On 23rd March, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, applicable from April 1st, 2022, as below:

Ind AS 103 - Reference to Conceptual Framework

The amendments specify that to qualify for recognition as part of applying the acquisition method, the identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the Conceptual Framework for Financial Reporting under Indian Accounting Standards (Conceptual Framework) issued by the Institute of Chartered Accountants of India at the acquisition date. These changes do not significantly change the requirements of Ind AS 103. The Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 16 - Proceeds before intended use

The amendments mainly prohibit an entity from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, an entity will recognise such sales proceeds and related cost in profit or loss. The Company does not expect the amendments to have any impact in its recognition of its property, plant and equipment in its financial statements.

Ind AS 37- Onerous Contracts - Costs of Fulfilling a Contract

The amendments specify that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts. The amendment is essentially a clarification and the Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 109 -Annual Improvements to Ind AS

The amendment clarifies the treatment of any cost or fees incurred by an entity in the process of derecognition of financial liability in case of repurchase of the debt instrument by the issuer. The Company does not expect the amendment to have any significant impact in its financial statements.

Note 3 : Significant accounting judgments, estimates and assumptions

The preparation of financial statements in conformity with Ind AS requires the management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, the disclosures of contingent assets and contingent liabilities at the date of financial statements, income and expense during the period. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognized in the periods in which the estimates are revised and in future periods which are affected.

Critical Accounting Estimates and Judgments

In the process of applying the Company's accounting policies, management has made the following judgments, which have the most significant effect on the amounts recognised in the financial statements.

(i) Contingences and Commitments

In the normal course of business, contingent liabilities may arise from litigations and other claims against the Company. Where the potential liabilities have a low probability of crystallising or are very difficult to quantify reliably, such liabilities treated are as contingent liabilities. Such liabilities are disclosed in the notes but are not provided for in the financial statements. Although there can be no assurance regarding the final outcome of the legal proceedings, the management do not expect them to have a materially adverse impact on our financial position or profitability.

(ii) Taxes

Deferred tax assets are recognised for unused tax credits to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

(iii) Employee Benefits

Discount rate used to determine the carrying amount of the Company's defined benefit obligation.

The cost of defined benefit plan is determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, expected rates of return on assets, future salary increases, mortality rates and future pension increases. Due to the long-term nature of these plans, such estimates are subject to significant uncertainty.

In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

(iv) Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is

DYNAMIC INDUSTRIES LIMITED

required in establishing fair values. Estimated irrecoverable amounts are based on the ageing of the receivable balance and historical experience. Individual trade receivables are written off when management deems it not to be collectible.

(v) Allowance for uncollectible trade receivables

Provision matrix takes into accounts historical credit loss experience and adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the day of the receivables are due and the rates as given in the provision matrix.

(vi) Impairment of Property, Plant & Equipment

The value in use calculation requires the directors to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate present value. Where the actual future cash flows are less than expected, an impairment loss which is material in nature is accounted for.

(vii) Litigations

The provision is recognized based on the best estimate of the amount desirable to settle the present obligation arising at the reporting period and of the income is recognized in the cases involving high degree of certainty as to realization.

(viii) Useful Life of Property, Plant and Equipment

As described in Note 4.3, the Company reviews the estimated useful lives and residual values of property, plant and equipment at the end of each reporting period. During the current financial year, the management determined that there were no changes to the useful lives and residual values of the property, plant and equipment.

Note 4 : Significant Accounting Policies

4.1 Financial Instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

(a) Financial Assets

Financial Assets comprises of investments in equity instruments, trade receivables, cash and cash equivalents and other financial assets.

Initial Recognition:

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through Profit or Loss, transaction costs that are attributable to the acquisition of financial assets. Purchases or sales of financial assets that requires delivery of assets within a period of time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the company committed to purchase or sell the asset.

Subsequent Measurement :

(i) Financial assets measured at amortized Cost :

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and where contractual terms of financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Financial assets at Fair Value through Other Comprehensive Income (FVTOCI) :

Financial Assets that are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding are subsequently measured at FVTOCI. Fair Value movements in financial assets at FVTOCI are recognized in Other Comprehensive Income.

Equity instruments held for trading are classified as at fair value through profit or loss (FVTPL). For other equity instruments the company classifies the same as FVTOCI. The classification is made on initial recognition and is irrevocable. Fair Value changes on equity instruments at FVTOCI, excluding dividends are recognized in Other Comprehensive Income (OCI).

(iii) Fair Value through Profit or Loss (FVTPL) :

Financial Assets are measured at FVTPL if it does not meet the criteria for classification as measured at amortized cost or at FVTOCI. All fair value changes are recognized in the Statement of Profit and Loss.

De-recognition of Financial Assets :

Financial Assets are derecognized when the contractual rights to cash flows from the financial assets expire or the financial asset is transferred and the transfer qualifies for derecognition. On de-recognition of the financial assets in its entirety, the difference between the carrying amount (measured at the date of de-recognition) and the consideration received (including any new asset obtained less any new liability assumed) shall be recognized in the Statement of Profit and Loss.

(b) Financial Liabilities

Initial Recognition and Measurement

Financial Liabilities are initially recognized at fair value plus any transaction costs, (if any) which are attributable to acquisition of the financial liabilities.

Subsequent Measurement :

Financial Liabilities are classified for subsequent measurement into following categories:

(i) Financial liabilities at Amortized Cost :

The Company is classifying the following under amortized cost:

- Borrowing from Banks
- Borrowing from Others
- Trade Payables
- Other Financial Liabilities

Amortized cost for financial liabilities represents amount at which financial liability is measured at initial recognition minus the principal repayments, plus or minus cumulative amortization using the effective interest method of any differences between the initial amount and maturity amount.

(ii) Financial liabilities at Fair Value through Profit or Loss :

Financial liabilities held for trading are measured at Fair Value through Profit or Loss

De-recognition of Financial Liabilities:

Financial liabilities shall be derecognized when, and only when, it is extinguished i.e. when the obligation specified in the contract is discharged or cancelled or expires.

(c) Offsetting of Financial assets and Financial Liabilities

Financial assets and Financial Liabilities are offset and the net amount is presented in Balance Sheet when, and only when, the Company has legal right to offset the recognized amounts and intends either to settle on the net basis or to realize the assets and liabilities simultaneously.

(d) Reclassification of Financial Assets and Financial Liabilities

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are categorized as equity instruments at FVTOCI, and financial assets or liabilities that are specifically designated as FVTPL. For financial assets which are debt instruments, a reclassification is made only if there is a change in business model for managing those assets. Changes to the business model are expected to be very infrequent. The management determines the change in a business model as a result of external or internal changes which are significant to the Company's Operations. A Change in business occurs when the company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively effective from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

4.2 Share Capital

Ordinary Shares are classified as equity. Incremental costs directly attributable to the issue of new ordinary shares or share options are recognized as a deduction from equity, net of any tax effects.

DYNAMIC INDUSTRIES LIMITED

4.3 Property, Plant and Equipment

Property, plant and equipment held for use in the supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses. Freehold land is not depreciated. All repairs and maintenance costs are charged to the income statement during the financial period in which they are incurred.

Properties in the course of construction for supply of services or administrative purpose are carried at cost, less any recognised impairment loss. Cost includes professional fees and other directly attributable cost and for qualifying assets, borrowing cost capitalised in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of Property Plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives as prescribed under Part C of Schedule II to the Companies Act 2013, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis. Depreciation for assets purchased/sold during a period is proportionately charged for the period of use.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and are recognised net within "other income / other expenses" in the Statement of profit and loss.

4.4 Intangible assets

Intangible Assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straightline basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

Derecognition of intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, and are recognized in statement of profit and loss when the asset is de-recognized.

Useful lives of intangible assets

Estimated useful lives of the intangible assets are as follows :

| Type of Asset | Useful Life |
|-------------------|-------------|
| Computer Software | 3 years |

4.5 Inventories

- (i) Raw Materials, Stock-in-process, Finished Goods are valued at lower of cost or net realizable value. Cost of stock-in-process and finished goods include materials, labour, manufacturing overhead and other cost incurred in bringing the inventories to their present location.
- (ii) Stock of stores, spares, consumable and packing materials are valued at cost.

4.6 Impairment

(a) Financial assets (other than at fair value)

The Company assesses at each date of balance sheet, whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the twelve-month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly, since initial recognition.

(b) Non-financial assets**Tangible and Intangible assets**

Property, Plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is an indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the statement of profit and loss.

Reversal of impairment loss

Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists.

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized directly in other comprehensive income and presented within equity.

4.7 Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre tax rates that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

A provision for onerous contract is recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognizes any impairment loss on the assets associated with the contract.

Contingent liabilities are not recognised in the financial statements. A contingent asset is neither recognised nor disclosed in the financial statements.

4.8 Revenue Recognition

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

The Company has generally concluded that it is the principal in its revenue arrangements, because it typically controls the goods or services before transferring them to the customer.

The specific recognition criteria described below must also be met before revenue is recognized.

Sale of Goods

- (i) Revenue is recognised when control of goods is transferred to a customer in accordance with the terms of the contract. The control of the goods is transferred upon delivery to the customers either at factory gate of the Company or specific location of the customer or when the goods are handed over to the freight carrier, as per the terms of the contract. A receivable is recognised by the Company when the goods are delivered to the customer as this represents the point in time at which the right to consideration becomes unconditional, as only the passage of time is required before payment is due.
- (ii) The Company accounts for pro forma credits, refunds of duty of customs or excise, or refunds of sales tax/ GST in the year of admission of such claims by the concerned authorities. Export benefits are classified as other operating income and recognized on accrual basis in the year of export based on eligibility and when there is no uncertainty on receiving the same.

Interest Income

Interest income is recognised using the effective interest method as set out in Ind AS 109 - Financial Instruments: Recognition and Measurement, when it is probable that the economic benefits associated with the transaction will flow to the Company and the amount of the revenue can be measured reliably. The effective interest method is a method of calculating the amortised cost of a financial asset or a financial liability and of allocating the interest income or interest expense over the relevant period.

Dividend Income

Dividend income is recognised when right to receive payment is established and it is probable that the economic benefits associate? with the transaction will flow to the Company and the amount of the revenue can be measured reliably.

4.9 Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for shortterm leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(i) Right-of-use assets

The Company recognises right-of-use assets ("ROU Assets) at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

If ownership of the leased asset transfers to the company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment. Refer to the accounting policies in 4.6(b) Impairment of non-financial assets.

(ii) Lease liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the

commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset. Lease liabilities has been presented under the head "Other Financial Liabilities".

(iii) **Short-term leases and leases of low-value assets**

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption that are considered to be low value. Lease payments on short-term leases and leases of low value assets are recognised as expense on a straight-line basis over the lease term.

4.10 Foreign Currency Translation

The functional currency of the Company is the Indian Rupee (₹).

Exchange differences on monetary items are recognised in the Statement of profit and loss in the period in which they arise except for:

- (i) exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings;
- (ii) exchange differences arising from translation of long-term foreign currency monetary items recognised in the financial statements of the Company for the period immediately before the beginning of the first Ind AS financial reporting period (prior to 1st April, 2016), as per the previous GAAP, pursuant to the Company's choice of availing the exemption as permitted by Ind AS 101.

Non-monetary assets and liabilities that are measured in terms of historical cost in foreign currencies are not retranslated.

Income and expense items in foreign currency are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case the exchange rates at the dates of the transactions are used.

4.11 Borrowing Costs

Borrowing costs include

- (i) interest expense calculated using the effective interest rate method,
- (ii) finance charges in respect of finance leases, and
- (iii) exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs.

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in the statement of profit and loss in the period in which they are incurred.

4.12 Employee benefits

(a) Short-term obligations

Liabilities for salaries, including other monetary and non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(b) Post-employment obligations

DYNAMIC INDUSTRIES LIMITED

The Company operates the following post-employment schemes: a) defined contribution plans - provident fund
b) defined benefit plans- gratuity plans

(i) Defined contribution plans

The Company has defined contribution plan for the post-employment benefits namely Provident Fund and Employees Death Linked Insurance, the contributions towards such funds and schemes are recognised as employee benefits expense and charged to the Statement of Profit and Loss when they are due. The Company does not carry any further obligations with respect to this, apart from contributions made on a monthly basis.

(ii) Defined benefit plans

The Company has defined benefit plan, namely gratuity for eligible employees in accordance with the Payment of Gratuity Act, 1972 the liability for which is determined on the basis of an actuarial valuation (using the Projected Unit Credit method) at the end of each year.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the tenor of the related obligation. The liability or asset recognized in the balance sheet in respect of gratuity is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets.

The service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements) is recognised in the Statement of profit and loss in the line item 'Employee benefits expense'.

Remeasurements of the net defined liability, comprising of actuarial gains and losses, return on plan assets (excluding amounts included in net interest on the net defined benefit liability) and any change in the effect of asset ceiling (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through Other Comprehensive Income (OCI) in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Change in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in the profit or loss as past service cost.

4.13 Income Taxes

Income tax expense represents the sum of the tax currently payable and deferred tax

(i) **Current tax**

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

(ii) **Deferred Tax**

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying

amount of its assets and liabilities.

(iii) Current and deferred tax for the year

Current and deferred tax are recognised in the Statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

4.14 Derivative financial instruments

Derivatives are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently re-measured to their fair value at the end of each reporting period. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

4.15 Earnings per share

The Company presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to the ordinary shareholders of the company by the weighted average number of ordinary shares outstanding during the period. Where ordinary shares are issued but not fully paid, they are treated in the calculation of basic earnings per share as a fraction of an ordinary share to the extent that they were entitled to participate in dividends during the period relative to a fully paid ordinary share. Diluted earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares considered for deriving basic EPS and also weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

4.16 Fair Value Measurement

A number of Company's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair value is the price that would be received on sell of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal market or the most advantageous market must be accessible to the Company.

The fair value of an asset or liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy based on the lowest level input that is significant to the fair value measurement as a whole. The fair value hierarchy is described as below :

- (a) Level 1 - unadjusted quoted prices in active markets for identical assets and liabilities.
- (b) Level 2- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- (c) Level 3- unobservable inputs for the asset or liability.

For assets and liabilities that are recognized in the financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by reassessing categorization at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of fair value hierarchy.

Fair values have been determined for measurement and / or disclosure purposes based on the following methods.

DYNAMIC INDUSTRIES LIMITED

When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

(a) Investment in equity and debt securities

The fair value is determined by reference to their quoted price at the reporting date. In the absence of quoted price, the fair value of the financial asset is measured using valuation techniques.

(b) Trade and other receivables

The fair value of trade and other receivables, excluding construction contracts in progress, is estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting date. However in respect of such financial instruments, fair value generally approximates the carrying amount due to short term nature of such assets. This fair value is determined for disclosure purposes or when acquired in a business combination.

(c) Non derivative financial liabilities

Fair Value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date. For finance leases, the market rate of interest is determined by reference to similar lease agreements.

4.17 Current / non-current classification

An asset is classified as current if :

- (a) it is expected to be realized or sold or consumed in the Company's normal operating cycle;
- (b) it is held primarily for the purpose of trading;
- (c) it is expected to be realized within twelve months after the reporting period; or
- (d) it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current if:

- (a) it is expected to be settled in normal operating cycle;
- (b) it is held primarily for the purpose of trading;
- (c) it is expected to be settled within twelve months after the reporting period;
- (d) it has no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between acquisition of assets for processing / trading / assembling and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

4.18 Cash and cash equivalent

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

(i) The Company has not recognized and acknowledged the Income Tax demand as liability in its books of accounts aggregating to ₹ 15.34 Lacs (P.Y. ₹ 10.66 lacs) in respect of earlier years since the company has disputed the demand and has filed appeals before appropriate authorities. The same are pending for final adjudication.

(ii) In the Financial year 2008-2009 the Department of Excise and Customs had inspected certain records related to materials imported under license removed for jobwork to various parties whose name did not appear in the license as job-worker or as supporting manufacturer. The department had objected such removal and also observed that aforesaid materials have not been returned back under job work challan from the above parties but under sales invoices. The department also seized certain records related to job work for the Financial Year 2006-07 and 2007-08. The company had deposited a sum of ₹ 5.08 lacs under protest. However based on legal opinion obtained from the excise consultant, the company has transferred the aforesaid deposit to PLA under intimation to department concerned. After that the company has received an order on 28th March, 2012 confirming the demand of custom duty amounting to ₹ 85.57 lacs and penalty of ₹ 85.57 lacs under section 114A of the Custom Act aggregating to ₹ 171.14 lacs and interest at applicable rates on the amount of duty evaded.

The company has filed an appeals and Hon'ble Tribunal has granted stay against aforesaid demand. The Custom Authority against such stay has referred the matter to Hon'ble High court, Gujarat which is yet to be heard. Pending final outcome, the company does not expect any liability and accordingly no provision in respect thereof has been made but disclosed the same as contingent liability.

(iii) The company has been served with show cause notices in respect of service tax credit aggregating amounting to ₹ 77.13 lacs availed by the company in the earlier financial years. The Company has already filed its reply against the aforesaid show cause notices before appropriate authorities & such authorities are yet to react on such replies.

(c) Sensitivity analysis

The sensitivity of the defined benefit obligation to changes in the weighted principal assumption is :

Gratuity :

| Impact on defined benefit obligation | | | | | | | | |
|--------------------------------------|----------------------|----------------|-------------|-------------------------|----------------|-------------|-------------------------|----------------|
| Particulars | Change in Assumption | | Particulars | Increase in Assumptions | | Particulars | Decrease in Assumptions | |
| | March 31, 2022 | March 31, 2021 | | March 31, 2022 | March 31, 2021 | | March 31, 2022 | March 31, 2021 |
| Discount Rate | 0.50% | 0.50% | Decrease by | (2.20)% | (1.99)% | Increase by | 2.36% | 2.13% |
| Salary growth rate | 0.50% | 0.50% | Increase by | 2.21% | 1.91% | Decrease by | (2.08)% | (1.86)% |
| Withdrawal rate | 0.50% | 0.50% | Decrease by | (0.18) | (0.31) | Increase by | 0.19% | 0.32% |

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined obligation calculated with the projected unit credit method at the end of reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior year.

| Insurer managed funds | 100% | 100% | 22.25 | 49.41 |
| Total | 100% | 100% | 22.25 | 49.41 |

(e) Risk exposure

Through its defined benefit plans, the group is exposed to a number of risks, the most significant of which are detailed below:

Asset volatility

The plan liabilities are calculated using a discount rate set with reference to bond yields; if plan assets underperform this yield, this will create a deficit.

The gratuity fund is administered through Life Insurance Corporation of India (insurer) under its group gratuity scheme. Accordingly almost the entire plan asset investment is maintained by the insurer. These are subject to interest rate risk which is managed by the insurer.

Changes in bond yields

A decrease in bond yields will increase plan liabilities, although this will be partially offset by an increase in the value of the plans' assets maintained by the insurer.

The gratuity fund is administered through Life Insurance Corporation (LIC) of India under its Group Gratuity Scheme.

(f) Defined benefit liability and employer contribution

The Company generally eliminates the deficit in the defined benefit gratuity plan within next one year.

Expected contribution to the post -employment benefit plan (Gratuity) for the next year is ₹ 5.97 Lakhs. (P.Y. ₹ 7.31 Lacs)

The weighted average duration of the defined benefit obligation is 4.57 years (2021 – 4.09 years).

The expected maturity analysis of undiscounted post -employment benefit plan (gratuity) is as follows:

Note 44 : Leases

The Company has entered into various Lease Arrangements for "Land" for the purpose of factory building, which are "Non-cancellable" and thus, creates enforceable rights. The Company applied the standard on such Lease Arrangements and recognised the "Right of Use".

Further, the Company, having already paid the upfront Lease rentals / premium at the time of execution of Lease Deed which accounted for almost all the lease payments, does not owe any lease obligations under such lease arrangement and accordingly "Lease obligations" corresponding to "Right of Use" asset are not recognised.

Fair value hierarchy

The following section explains the judgments and estimates made in determining the fair values of the financial instruments that are recognized and measured at fair value through profit or loss. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial investments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

DYNAMIC INDUSTRIES LIMITED

B. Fair value hierarchy for assets

Financial assets measured at fair value at March 31, 2022

[₹ in Lakhs]

| | Level 1 | Level 2 | Level 3 | Total |
|--|---------|---------|---------|--------|
| Financial Assets | | | | |
| Investments - Real Estate Funds / Liquid Mutual Fund | 90.42 | 222.04 | 1.36 | 313.82 |

Financial assets measured at fair value at March 31, 2021

[₹ in Lakhs]

| | Level 1 | Level 2 | Level 3 | Total |
|--|---------|---------|---------|--------|
| Financial Assets | | | | |
| Investments - Real Estate Funds / Liquid Mutual Fund | 358.84 | 102.37 | 3.68 | 464.89 |

Notes:

Level 1 hierarchy includes financial instruments measured using quoted prices (unadjusted) in active market for identical assets that the entity can access at the measurement date. This represents mutual funds that have price quoted by the respective mutual fund houses and are valued using the closing Net asset value (NAV).

Level 2 hierarchy includes the fair value of financial instruments measured using quoted prices for identical or similar assets in markets that are not active.

Level 3 if one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted compound instruments.

There are no transfers between any of these levels during the year. The Company's policy is to recognize transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

C. Valuation techniques used to determine fair value

Specific valuation techniques used to value financial instruments include:

- (i) The use of quoted market prices or mutual fund houses quotes (NAV) for such instruments. This is included in Level 1

D. Fair value of financial assets and liabilities measured at amortized cost

The Management has assessed that fair value of loans, trade receivables, cash and cash equivalents, other bank balances, other financial assets and trade payables approximate their carrying amounts largely due to their short-term nature. Difference between carrying amount of Bank deposits, other financial assets, borrowings and other financial liabilities subsequently measured at amortised cost is not significant in each of the years presented.

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

Note 47 : Financial risk management

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The board has established the Audit Committee, which is responsible for developing and monitoring the Company's risk management policies. The Committee holds regular meetings and report to board on its activities.

The Company's risk management policies are established to identify and analyses the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The audit committee oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk.

| Risk | Exposure arising from | Measurement | Management of risk |
|--------------------------------|--|--|---|
| Credit Risk | Cash and cash equivalents, trade receivables, Financial assets measured at amortized cost. | Aging analysis | Diversification of funds to bank deposits, Liquid funds and Regular monitoring of credit limits. |
| Liquidity Risk | Borrowings and other liabilities | Rolling cash flow forecasts | Availability of surplus cash, committed credit lines and borrowing facilities |
| Market Risk - Foreign Exchange | Recognized financial assets and liabilities not denominated in Indian rupee (₹) | Cash flow forecasting sensitivity analysis | Regular monitoring to keep the net exposure at an acceptable level, with option of taking Forward Foreign exchange contracts if deemed necessary. |
| Price Risk | Investments in mutual funds | Credit ratings | Portfolio diversification and regular monitoring |

(a) Credit risk

Credit risk is the risk of financial loss to the company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The company is exposed to the credit risk from its trade receivables, unbilled revenue, investments, cash and cash equivalents, bank deposits and other financial assets. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets.

Trade and other receivables

Trade receivables comprise a widespread customer base. Management evaluates credit risk relating to customers on an ongoing basis. If customers are independently rated, these ratings are used. Otherwise, if there is no independent rating, risk control assesses the credit quality of the customer, taking into account its financial position, past experience and other factors

For trade receivables, provision is provided by the company as per the below mentioned policy :

Cash and Cash Equivalents

Credit risk on cash and cash equivalents and other deposits with banks is limited as the Company generally invests in deposits with banks with high credit ratings assigned by external credit rating agencies; accordingly the Company considers that the related credit risk is low. Impairment on these items is measured on the 12-month expected credit loss basis.

(b) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company's treasury maintains flexibility in funding by maintaining liquidity through investments in liquid funds and other committed credit lines. Management monitors rolling forecasts of the group's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows.

(c) Market Risk

Market risk is the risk arising from changes in market prices – such as foreign exchange rates and interest rates – will affect the Company's income or the value of its holdings of financial instruments. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables and long term debt. The Company is exposed to market risk primarily related to foreign exchange rate risk, interest rate risk and the market value of the investments. Thus, the exposure to market risk is a function of investing and borrowing activities and revenue generating and operating activities in foreign currency.

(i) Currency Risk

The Company is exposed to currency risk on account of foreign currency transactions including recognized assets and liabilities denominated in a currency that is not the Company's functional currency (₹), primarily in respect of US\$, and Euro. The Company ensures that the net exposure is kept to an acceptable level and is remain a net foreign exchange earner.

Exposure to currency risk

The currency profile of financial assets and financial liabilities are given below:

[Amount in lakhs]

| Particulars | As at March 31, 2022 | | As at March 31, 2021 | |
|------------------------------|----------------------|-----------------|----------------------|-----------------|
| Financial Assets | | | | |
| Trade Receivables | USD 8.80 | ₹ 667.22 | USD 2.90 | ₹ 212.88 |
| Total | 8.80 | ₹ 667.22 | 2.90 | ₹ 212.88 |
| Financial Liabilities | | | | |
| Trade Payable | USD 1.29 | ₹ 97.65 | USD 2.03 | ₹ 149.71 |
| Total | 1.29 | ₹ 97.65 | 2.03 | ₹ 149.71 |

Sensitivity Analysis

Any change with respect to strengthening (weakening) of the Indian Rupee against various currencies as at March 31, 2022 and March 31, 2021 would have affected the measurement of financial instruments denominated in respective currencies and affected equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates.

[₹ in Lakhs]

| Particulars | Profit or Loss | | Profit or Loss | |
|---|----------------------|---------------|----------------------|---------------|
| | As at March 31, 2022 | | As at March 31, 2021 | |
| | Strengthening | Weakening | Strengthening | Weakening |
| USD (Increase/Decrease by 1%, March 31, 2021 - 1%) | 5.70 | (5.70) | 0.63 | (0.63) |
| Total | 5.70 | (5.70) | 0.63 | (0.63) |

(ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with floating interest rates and investments

Most of the Company's borrowings are on a floating rate of interest. The Company has exposure to interest rate risk, arising principally on changes in Marginal Cost of Funds based Lending Rate (MCLR). The Company uses a mix of interest rate sensitive financial instruments to manage the liquidity and fund requirements for its day to day operations like short term credit lines besides internal accruals.

The exposures of the Company's financial assets / liabilities at the end of the reporting period are as follows:

[₹ in Lakhs]

| Particulars | As at March 31, 2022 | As at March 31, 2021 |
|--------------------------|-------------------------|-------------------------|
| Fixed rate borrowings | 0 | 0 |
| Floating rate borrowings | 353.53 | 257.02 |
| | 353.53 | 257.02 |

Interest rate risk sensitivity:

The below mentioned sensitivity analysis is based on the exposure to interest rates for floating rate borrowings. For this it is assumed that the amount of the floating rate liability outstanding at the end of the reporting period was outstanding for the whole year. If interest rate had been 50 basis points higher or lower, other variables being held constant, following is the impact on profit.

[₹ in Lakhs]

| Particulars | As at March 31, 2022 | As at March 31, 2021 |
|--|-------------------------|-------------------------|
| Impact on profit - increase in 50 basis points | (1.77) | (1.29) |
| Impact on profit - decrease in 50 basis points | 1.77 | 1.29 |

(iii) Price Risk**Exposure**

The Company's exposure to securities price risk arises from investments held in mutual funds and classified in the balance sheet at fair value through profit or loss. To manage its price risk arising from such investments, the Company diversifies its portfolio. Further these are all debt base securities for which the exposure is primarily on account of interest rate risk. Quotes (NAV) of these investments are available from the mutual fund houses.

Profit for the year would increase/decrease as a result of gains/losses on these securities classified as at fair value through profit or loss.
